

Potential scientific supervisors: Education

No	Full name	University	Field of study	Link to portfolio
1	Gulshat Shakirova	Kazan Federal University	Students' Not Knowing and misunderstanding of the educational material is interpreted as a gap in learning and as a factor of disadvantage in the level of educational achievement and student learning. At the same time, studies in the field of psychology of mathematical education considers the phenomenon of Not Knowing as a critical element in the development of students' thinking. That is why, within the framework of the project, the phenomenon of "Not Knowing" is considered as the first step towards the construction of knowledge by students and, further, towards their effective solution of educational problems. This is a complex cognitive process, and at the same time, an unexplored phenomenon associated with the ability to exteriorize Not Knowing in the process of educational activity.	https://kpfu.ru/Gulshat.Shakirova&p_lang=2
2	Sergey Kosaretsky	HSE University	Educational policy, governance, reforms in the systems of basic (general) and extracurricular (additional) education at the national level	https://aspirantura.hse.ru/en/opens/
3	Kotlyarova Irina Olegovna	South Ural State University (National Research University)	Challenges to modern continuing professional education. Additional professional education.
